

The University of Georgia

## POSTDOCTORAL POSITION

A postdoctoral position is available immediately **in the Department of Infectious Diseases at the University of Georgia in the laboratories of Drs. Balázs Rada and Ralph A. Tripp.**

The groups' research is focused on determining the role of reactive oxygen species in virus-host interactions at the respiratory mucosa, therapeutic intervention strategies and the mechanism of respiratory epithelial cell resistance to influenza virus. The applicant must be highly motivated and qualified individual for this NIH-funded postdoctoral position and have the skill set and ability to work with a mouse model. Major emphasis is placed on both the mechanistic and therapeutic components of the project.

Support is available for up to 2 years and is commensurate with qualifications and experience. Qualified candidates for this position are expected to have a strong publication record and excellent references. Knowledge in immunology and virology is relevant. Applicants are required to have a PhD or MD/PhD with a background in biochemistry, immunology and/or virology and excellent verbal/written communication skills. Persons skilled in flow cytometry, ELISA and who can work with influenza virus strains and mice are encouraged to apply. Applicants are encouraged to visit the principal investigators' web sites: <http://vet.uga.edu/id/people/rada-b>; <http://vet.uga.edu/id/people/tripp-r>.

Interested candidates should send cover letter, biosketch and/or curriculum vitae and names of three references to Dr. Balázs Rada ([radab@uga.edu](mailto:radab@uga.edu)), Department of Infectious Diseases, The University of Georgia, Athens, GA, U.S.A. Review of applications begins immediately and continues until the position is filled.

The University of Georgia is an Equal Opportunity/Affirmative Action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability, gender identity, sexual orientation or protected veteran status.
